Polyurethane-Encapsulated IPDI Microcapsules via Low-Shear Interfacial Polymerization

PRODUCT

A product dossier of The Absence Audit. The current audit flags this concept — Margin fails the operating-cost check — and the full disclosure ships inside the dossier.

Incumbent benchmark

Xypex Admix C-1000 NF

Entry application

Tier-2 pre-cast concrete manufacturing market

Measured advantage

87.8% compressive strength recovery vs <50% for Xypex Admix C-1000 NF (>1.7x improvement)

Time to first revenue	18 months
Gross margin at parity	9.2%
Startup CapEx	\$315,000
Payback from first sale	48.3 months
Capital productivity	3.99x
Regulatory risk	Moderate — qualification costs reported (\$150,000 estimated)

BUY THE FULL DOSSIER

Mechanism, operating protocol with real conditions and yields, computed unit economics with a six-scenario stress test, the absence audit, and every resolved citation.

Terms

Published for research and educational purposes. Nothing here is investment, legal, regulatory or engineering advice, and no commercial outcome is promised or implied. Concepts are drawn from published scientific literature and have not been commercially validated; several involve chemical, biological or regulated processes that require appropriate expertise, facilities, permits and safety controls. Independently verify every figure, citation and regulatory requirement before committing capital.
